

Faster execution. *Fewer* costs.

AutomintLab is the specialist team behind VistaMove Technologies' data, AI, and automation engagements - with VistaMove delivering cyber security, DPDPA compliance, and resilient IT infrastructure for the same clients.

ABOUT US

Vistamove & Automintlab Solving Every part of the problem.

VistaMove Technologies delivers the engagement - AutomintLab, our in-house team of data and automation specialists, delivers the work. Together, we help businesses replace manual effort, scattered spreadsheets, and guesswork with systems that just work.

01

Smarter Systems

Practical AI that reads documents, answers questions, and supports decisions - without needing a technical team to run it.

02

Clearer Data

Turning scattered spreadsheets and disconnected tools into a single, trustworthy view of the business.

03

Less Manual Work

Automating the repetitive, error-prone tasks that quietly eat up hours every week.

04

Better-Run Operations

Giving leadership real-time visibility into performance, risk, and where money and time are being lost.

05

Secure & Compliant IT

VistaMove protects the infrastructure behind it all - network, endpoint, and cloud security, plus DPDPA compliance and data protection assessments.

OUR FOOTPRINT

Real problems. Real teams. Real results.

Over the years, our team has worked inside finance, operations, compliance, and support functions - not just IT - solving the everyday problems that slow a business down.

9+

SPECIALISTS

50+

YEARS COMBINED EXPERIENCE

16+

INDUSTRIES SERVED

25+

ENGAGEMENTS DELIVERED

Cut the hours teams spent manually re-typing invoices, policies, and audit files into spreadsheets.

Gave sales and operations teams accurate forecasts instead of best guesses.

Helped leadership catch errors, fraud, and compliance gaps before they became costly.

Replaced scattered reporting with a single, live view of business performance.

INDUSTRIES WE SERVE

Multiple sectors. One way of working.

- Life Insurance
- Hospitality
- Manufacturing
- FMCG
- Retail
- EdTech
- Legal Services
- Healthcare
- Ecommerce
- FinTech
- Banking
- Telecom
- Automobile
- Media & Content
- Consulting

LIFE INSURANCE

Faster underwriting with automatic policy data extraction and renewal forecasting.

FMCG

Trade promotion and route-to-market analytics that sharpen every campaign.

LEGAL SERVICES

An AI layer that keeps high-volume legal content current automatically.

FINTECH

Automated payments reconciliation and AI-graded fraud triage.

AUTOMOBILE

Dealership automation with DMS-to-ERP reconciliation and inventory risk scoring.

HOSPITALITY

Smarter pricing and reservation reporting to lift guest revenue.

RETAIL

Live inventory and shopper insights from real-time sales data.

HEALTHCARE

Automated clinical reporting and audit-ready compliance trails.

BANKING

Automated back-office reconciliation and sanctions screening.

MEDIA & CONTENT

GenAI editorial workflows with automated content QA.

MANUFACTURING

Predictive maintenance and demand forecasting that cut downtime.

EDTECH

Content and retention models built from learner-journey data.

ECOMMERCE

Real-time order pipelines and SKU-level demand forecasting.

TELECOM

Churn prediction and network anomaly detection at scale.

CONSULTING

Knowledge management and engagement analytics for client teams.

OUR PRIME EXPERTS

One collective team.

Each engagement is led by a specialist matched to the problem - not a generalist spread thin across everything.

01 • AETHER PRIME

Automation & AI Systems Lead

Designs AI assistants and workflows that plug directly into how a team already works.

02 • HELIX ZERO

AI Transformation Lead

Leads AI-driven forecasting, quality, and process improvement programs.

03 • VECTOR SAGE

Risk & Audit Lead

Specializes in fraud detection, reconciliation, and financial controls.

04 • ORION FLUX

Data Product Lead

Builds growth and content systems that scale without added headcount.

05 • CIPHER NOVA

AI Solutions Lead

Turns complex documents and databases into simple, conversational tools.

06 • QUARTZ ECHO

Analytics & Insights Lead

Automates reporting and turns raw data into decision-ready dashboards.

07 • MERIDIAN

Data Governance Lead

Brings scattered enterprise data into one governed, trustworthy source of truth.

08 • NOVA VOLT

Data Engineering Lead

Builds the reliable data pipelines everything else depends on.

09 • ONYX PULSE

Operations & Automation Lead

Automates back-office operations across finance, support, and compliance.

WHY TEAMS CHOOSE US

Built for people who aren't technical, either.

01 Plain-language delivery

No jargon. Every solution is explained in terms of the outcome not the technology.

02 Built around your team

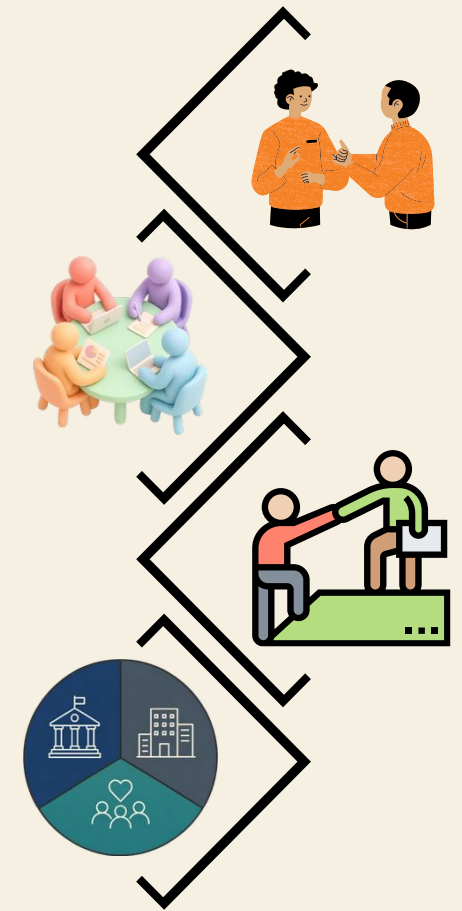

Tools that fit into existing workflows for finance, operations, compliance, and HR not the other way around.

03 One accountable partner

VistaMove leads the relationship; AutomintLab's specialists execute a single point of contact throughout.

04 Proven across sectors

Sixteen industries and an experience in delivering 25+ engagements of hands-on experience solving real operational problems.

LET'S DISCUSS

Bring us the hardest
problem. We'll build the
simplest, cost-effective fix.
